

Marine – Starting & Semi Cycling

Whether your customers are occasional outdoor explorers or regular ocean aficionados our wide marine range has their vessel needs catered for. With reliable starting and cycling power, there's plenty of capability to power both their boat and on-board accessories. Built with Australia's extreme conditions in mind, our batteries can tolerate plenty of punishment - from the vibration of an engine to the thumping of waves.

Features and benefits:

- Designed to withstand rugged marine conditions
- High cold cranking amps for excellent starting power
- Thicker plates with high density active material for strength, durability and performance
- Hot melt glue for high vibration resistance
- Fully sealed and maintenance free design
- Low self discharge rate

Cross reference guide:

CLUB ASSIST	7511
PREDATOR	MFM24XHD
BOND/ DEKA	756/ 24M7

Specifications:

PART NUMBER	7511
CASE TYPE	BCI 24
TECHNOLOGY	CALCIUM
VOLTAGE	12
CCA	680
RC (MINS)	140
AH (20HR)	80
LENGTH (MM)	257
WIDTH (MM)	172
HEIGHT (MM)	225
NOMINAL WEIGHT (KG)	18
POST ASSEMBLY	D
POST TYPE	MT
LEDGES	LS
FEATURES	-

Post Assembly

Post Type

Ledges

LS – Ledges on long side
SS – Ledges on short side

Features

RP – Recessed post
SC – Spiral construction
