

Marine – Starting & Semi Cycling

Whether your customers are occasional outdoor explorers or regular ocean aficionados our wide marine range has their vessel needs catered for. With reliable starting and cycling power, there's plenty of capability to power both their boat and on-board accessories. Built with Australia's extreme conditions in mind, our batteries can tolerate plenty of punishment - from the vibration of an engine to the thumping of waves.

Features and benefits:

- Designed to withstand rugged marine conditions,
- High cold cranking amps for excellent starting power,
- Thicker plates with high density active material for strength, durability and performance,
- Hot melt glue for high vibration resistance,
- Fully sealed and maintenance free design,
- Low self discharge rate
