

Absorbent Glass Mat (AGM) batteries are sealed, maintenance free batteries which deliver higher cranking, cycling performance and durability when compared to an equivalent sized EFB or Calcium battery. Many vehicles with Stop Start technology are fitted with AGM batteries, as well as modern vehicles that have higher power and durability demands.

Features and benefits:

- 2 year standard warranty & long cycle life
- Suitable for under bonnet application and dual battery systems
- Thicker plates with high density active material for durability and performance & excellent vibration resistance
