

Our deep cycling batteries are engineered with multiple technologies to cater to a vast array of recreational and commercial activities. We incorporate strong and durable materials to deliver reliable and sustained cycling performance. In an application where high cycle life is required, a flooded maintainable battery can provide a longer life span than a maintenance-free or an AGM battery when maintained regularly with distilled water.

Features and benefits:

- 1 year standard warranty
- Long cycle life
- Exceptional deep cycling power to keep your equipment running
- Thicker plates with high density active material for durability and performance
- Built tough to suit Australian conditions
- Common applications include golf carts, scissor lifts and forklifts

Cross reference guide:

CLUB ASSIST	6702
TROJAN	T-105
US BATTERY	US 125 XC2
PREDATOR	GC2-DT126-240
CENTURY, YUASA & BESCO	C-105

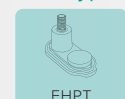

Specifications:

PART NUMBER	6702
CASE TYPE	GC2-105
TECHNOLOGY	Flooded
VOLTAGE	6
CCA	-
RC (MINS)	-
AH (20HR)	225
LENGTH (MM)	261
WIDTH (MM)	181
HEIGHT (MM)	279
NOMINAL WEIGHT (KG)	29
POST ASSEMBLY	A
POST TYPE	EHPT
LEDGES	-
FEATURES	-

Post Assembly

Post Type

Ledges

LS – Ledges on long side
SS – Ledges on short side

Features

RP – Recessed post
SC – Spiral construction
