

### Deep cycling – AGM

Our deep cycling batteries are engineered with multiple technologies to cater to an array of commercial and recreational activities. Engineered for the Australian market, our batteries incorporate quality and durable materials to deliver reliable and sustained cycling performance.

### Features and benefits:

- Absorbent Glass Mat (AGM) technology for superior performance
- Valve regulated, spill proof construction allows safe operation in any position
- Excellent vibration resistance
- Special additives in the paste ensure superior performance in deep discharge situations
- Power/volume ratio yielding unrivalled energy density
- Rugged impact resistant ABS case and cover (UL94-HB)
